

Center for Sustainable Finance

Driving Sustainable Finance in India

OVERVIEW

The Center for Sustainable Finance (CSF), a first-of-its kind initiative by Climate Policy Initiative, is a research, training, and networking hub that aims to accelerate the shift of India's financial sector towards more sustainable practices.

CSF's mission is to catalyze the transition of financial intermediation towards sustainability, fortify the financial system against climate risks and foster India's just transition to a low-carbon and climate resilient economy.

OUR SERVICES

CSF supports policymakers, regulators, real sector players, and financial institutions to make a low-carbon shift in capital allocation by sharing knowledge and insights, creating platforms for collaboration, and building capacity.

1 Research and Analysis

CSF conducts high-quality research on sustainable finance and investment, providing decision-makers with insights to design effective policies and strategies. Our publications cover topics including sustainable finance policy and regulation, green investment opportunities, transition finance, financing adaptation, and climate-related financial risks.

2 Collaboration

We collaborate with policymakers, regulators, academia, and financial institutions to facilitate dialogue on sustainable finance and climate-related financial risks. Through strategic partnerships with esteemed institutions, including the NTPC School of Business, we undertake rigorous research and analysis, facilitate knowledge exchange and build capacity.

3 Capacity Building

CSF is committed to building the institutional capacity of regulators, policy makers, real sector players, and financial institutions in sustainable finance. We offer comprehensive training programs for executives across the financial and real sector, equipping them with the skills and expertise to navigate climate risks and adopt sustainable finance practices. Our programs have been well-received and have contributed to institutional capacity development.

Our multifaceted approach empowers stakeholders to integrate sustainability into financial decision-making, thereby advancing India's transition to an inclusive, low-carbon and resilient economy.

OUR TEAM

CSF's dedicated team of experts has deep experience in policy and finance. Our team members possess strong domain knowledge and analytical rigor, ensuring the delivery of impactful research and training programs. Additionally, we benefit from the guidance of an external advisory committee comprising industry experts.
